Our Clients

Commercial

Federal

State, Local and Education (SLED)

Our Capabilities

Data & AI

- Data Preparation, Migration & Validation
- Data Governance, Architecture & Design, Storage/Warehousing, Management and Quality
- Business Intelligence/Analytics, Data Platform Development, Visualization & Predictive Analytics, GenAI, and Machine Learning

Cloud

- Cloud Strategy, Technology & Readiness Assessments, Cloud Consulting Services
- Cloud Migration & Adoption, Cloud Integration, Modernization, Cloud Native Development, Serverless Architecture, Service & Microservice-based Architecture

Modernization

- Application Rationalization and Modernization
- DevOps, DevSecOps, CI/CD, Automation, Test & Quality Mgmt.
- ERP Solutions (Implementation & Maintenance)
- Software Development & Engineering
- Solution Design & Development

Security

- Enterprise Security Strategy, Identity & Access Management, Zero Trust Security, Data & Application Security, Risk & Compliance, Managed Security Services

Our people, experience, and judgement - combined with our customer's ambition, acumen, and ingenuity - are at the centre of our clients' success.

Select Successful Past Performances

Operations Intelligence

Scope: Since 2022

- Agile Development
- Architecture and Data Design & Eng.
- DevOps Engineering
- AI Algorithms

Outcomes: *Predict user issues and automate resolutions before user reports.*

Business Insights

Scope: Since 2018

- Operations & Maintenance
- SAP BW & BPC
- Training & User Support
- Incident and Problem Management

Outcomes: *Streamlined maintenance and enhancements to exceed prescribed SLAs.*

Modernization & IoT Analytics

Scope: Since 2019

- Technology Uplift
- Training and User Support
- Planning, Architecture & Design
- Advanced and Predictive Analytics

Outcomes: *Enhanced metrics, close to real-time, predictive analytics for proactive maintenance of machines.*

Consolidation & Analytics

Scope: Since 2019

- Data Engineering
- Data Requests
- Software Development
- Reporting & Analytics

Outcomes: *Consolidated dashboards, enterprise-level data insights, self service level of business reports.*

Consolidation & Automation

Scope: Since 2021

- Agile / Project Management
- Architecture & Design
- Data Engineering & Application Dev.

Outcomes: *Automate the CPE data process to detect and resolve issues faster than conventional means.*

Consolidation & Modernization

Scope: Since 2021

- Project Mgmt., Architecture & Design
- Application Consolidation & Modernization
- Full-Stack Application Development

Outcomes: *Automate the CPE Device Management to increase efficiency, effectiveness and scale.*

System Engineering

Scope: Since 2021

- Operations Management
- Network, OS and Application Mgmt.
- Customer Issue & Experience Mgmt.
- Deployment Management

Outcomes: *Enhanced the efficiency of Operations and Maintenance. DevSecOps, improved rollouts of enhancements.*

Operations & Maintenance (O&M)

Scope: Since 2022

- Oracle eBusiness Suite
- Application Integration
- Technical and Functional Support
- Training and User Support

Outcomes: *Improved Maintenance processes, practical user training, Improved documentation, self learned capabilities.*
